COMMERCIAL FERTILIZERS.

What to Buy

That Commercial Fertilizers are essential to the successful production of crops can no longer be questioned. This has been settled by actual experience of the most successful farmers North and South, as well as upon the highest scientific authority.

The question therefore for the consideration of the farmer is, what to buy, in the shape of manure.

The answer to this question is: What has stood the test? What guano stands before the farmers of North Carolina as a practical success? We answer, the

Pine Island Ammoniated Phosphate.

That it is a success we have certificates from leading farmers in every section where it has been used—men who have used Commercial Manures for years and make money by it.

We don't dare say it does not pay to make manure at home. It does pay? And no one can be successful in farming unless he makes manure. When he has made all the manure possible the deficiency must be supplied by Commercial Fertilizers, for no one who cultivates cotton for profit (and that is the only profitable crop that can be raised in our section) can make on his farm a sufficiency of manure for his crops.

We offer the Pine Island Guano to supply this deficiency, in the fullest confidence that it is the best and cheapest fertilizer sold in the State.

We have arrangements for supplying it in any quantity, in good strong sacks, so that it can be transported any distance without loss.

The season for planting is now nearly at hand and we hope to receive all orders early so that they can be booked for immediate shipment from the Rail Road Warehouse thus saving the expense of drayage and handling.

Most Respectfully,
M. T. LEACH & CO.

We desire to establish agencies at all the principal Rail Road stations in the cotton section.

With good reliable agents satisfactory terms will be made.

——The next theatrical sensation is the coming of the Milton Jaspers, or as they term themselves, the Pathfinders a la Troubadours. Their specialties are in the comic line. They are booked for Tuesday and Wednesday evenings of next week, at Tucker Hall.

FR WINGATE ILL.—Information comes that Rev. W. S Wingate, D. D., President of Wake Forest College, is so dangerously ill that his life is despaired of.

PERSONALS.—Mr. W. Dumont, of Charlotte, is in the city.

Jas. T. Legrand, Esq., and H. C. Dockery, Esq., of Rockingham, are at the Yarboro.

Mr. W. E. Clarke, Member of the House from Craven, is at the Yarboro.

MARKET REPORT.—Mr. C. Battle Fowler, the keeper of the Metropolitan Market, reports that during last week the good people of this burg consumed the following in market: Beeves, 85; sheep, 31; hogs, 141; sausage, 4080 pounds; fish, 274 bunches.

During the week the market was fairly supplied with country produce, and eggs sold at 12½ @ 15 cents; chickens at 15 @ 20 cents.

U.S. COMMISSIONER'S COURT.—Commissioner Purnell tried three cases at his court of justice in the government building, yesterday. The first was that of Alex. Jones, colored, for counterfeiting the silver currency of these United States. This case was dismissed for want of evidence.

The same party was then tried on a charge of selling unstamped cigars. In this case also Jones came out luckily, the warrant being dismissed for the same cause as the other.

One Lonny Tompkins, another one of the Black Feather gang, as the band of counterfeiters who last autum operated in a part of this county was termed, was up for uttering base coin. Lonny is the embodiment of darkness, being the blackest darky who ever weakened daylight. The evidence against him was so strong that the Commissioner put him in a place he will find congenial, in default of $300 bail.

WALKS ABOUT TOWN.—A stroll around town these delightful mornings reveals the fact that the city is being beautified by the erection of a number of buildings, while the streets in some places are being improved. On Boylan avenue, near Hillsboro avenue, the elegant residence of Geo. H. Snow, Esq., is nearly complete. On Saunders avenue several dwellings are going up, and the hill in rear of the old mansion bids fair to be soon covered with them. The street is receiving some attention, as to grading and curbing. At the corner of West street and Hillsboro avenue Mr. J. D. Whitaker is building a two frame, about 30 x 50, to be used as a store and dwelling. Out by St. Mary's the street needs attention, and should be leveled, the grade being uneven. Some of the foot bridges need looking after, while there seems to be a desire to have the wooden bridge over the railway made more substantial. The new Sunday school room at Edenton street Methodist church is going up rapidly, and will soon be ready for occupancy.

New and Unheard Of!

Those unique cards. Just received at the News Job Office. The marvel of the age. *

DISCOMFORTS.—The Charlotte Democrat takes occasion to animadvert rather strongly upon the management of the streets of this city, which it declares are but bogs in winter and dust heaps in summer. There is much of truth in its remarks, as is evidenced. But a few days ago the streets were mud lakes, almost unnavigable, whereas on Saturday they were filled with dust eddies, as pedestrians found to their discomfort. Now they are in better condition than for some time, but will not long be so. Never mind, in the sweet by and by there will be pavements and street sprinklers, so that both these disagreeable conditions will be avoided.

WALKING AS A FINE ART.—In all the cities the new and fashionable sport of walking matches is all the go, and men and women are striving by day and night to walk the greatest possible number of miles. All classes of society are wild over the new fancy of the hour, and the papers teem with accounts of pedestrianizing. Thus far the prevalent disease hasn't reached Raleigh, and "walking against time" is one of the unknown things. Properly restricted, much amusement as well as benefit may be had by exercise in this respect, and it will no doubt come in vogue here. There should be an attempt made to get up a match and a prize offered. It will be found that there are numbers of young men who think themselves the match of any pedestrian. It will be no trouble to hire a hall as the scene of the match, and it will astonish any one who will push the enterprise to find how many will pay to see a match. The suggestion is thrown out, with the remark, incidentally, that "there's millions in it."

JOHN KING ESQ.—After having been connected with the work on the government building almost from its inception, serving first as Master Mechanic and more lately as Superintendent, Mr. John King has now severed his connection with the work, and by order from Washington has turned over the finished building to the post master. The building has been an object of peculiar care and attention to Mr. King, and the skill he has brought to bear, together with his pains aking devotion to the work, are shown in the finish and workmanship of the completed structure, one of the most beautiful and best built in the South. It reflects great credit upon him, and gives him a high rank in his profession, as is evidenced by the praise which his work earns from architects everywhere. His management has been strict, honest, and in all respects careful, and the interests of the government have always been considered, and his instructions faithfully followed. He leaves the work with the confidence of all connected with it.

IN A BOY'S POCKET.—Our friend Mr A. P. Bryan, the efficient Superintendent of the Express Company, and who is more loved by the boys than any man in the universe, had a few days ago three or four boys around him in his office. Curiosity led him to see what a boy's pocket might contain, so calling one up he made a thorough examination, and the little fellow shelled out the following articles which embrace a correct and truthful inventory to-wit: 3 tops, 1 top cord, 1 pin cushion—embroidered, 1 pair pulse warmers, 1 pair ivory tablets, 1 diary, 1 pair white kid gloves, 1 old show ticket, 1 bean shooter, (of course,) 1 glove finger, 9 slate pencils, 1 pen holder, 1 pencil calendar, 1 lead pencil, 2 shells, 1 watch chain, 1 glass bead, 1 package red glass, 2 buttons, lot of shot, 1 cartridge shell, 6 marbles, 1 knife, 1 bundle of strings.

The L. & R. Guano, Formerly Called the Star.

Latta & Myatt, who are prepared to offer it to their friends and the farming public on the most reasonable terms. Call on them for circulars and prices. *

Monroe's Prosperity.

Monroe Enquirer.

The business of this season, since the opening of the cotton market, certainly makes a good showing for Monroe. The number of bales of cotton shipped from here for the past four or five months will compare with the cotton exports of any inland town or city in the State; and the daily cargoes of merchandise freight landed at this place is gratifying evidence of the prosperity of our merchants and the activity in business circles. It is a notable fact that the business of Monroe is steadily increasing—not rapidly, it is true, but still there is an increase every year. Her fame as a desirable mart for sale of country productions and the procuring of great bargains is widening and spreading over a large area of country, and our merchants need but to adhere to the course which heretofore marked their to make business a fixed success of the future. "Quick sales and small profits" is always the winning card.

OUR LAW MAKERS.

SENATE.

MONDAY, Feb. 24, 1879.

The Senate was called to order at 10 a. m., President Robinson in the chair.

Mr. Henderson having been absent from his seat on Saturday, in attendance on the committee on finance, asked leave to have his name recorded in the affirmative, on the passage on its second reading, of the bill to aid in the construction of the Winston, Salem and Mooresville Railroad. Leave was granted.

PETITIONS.

Mr. Alexander presented petitions from citizens of Halifax and Edgecombe counties, asking for the enactment of a stock law. Referred.

Mr. Snow, a petition from citizens of Wake and Chatam counties in favor of a new county from portions of Wake and Chatham. Referred.

REPORTS OF COMMITTEES.

Reports of standing and select committees were presented by Messrs. Waldo, Bryan, of Pender, Moye, Shackelford and Davidson.

GOVNEROR'S MANSION.

Mr. Moye, from the special committee on that subject, reported on the erection of a Governor's residence. The report was accompanied by a bill carrying out the views of the committee. It was proposed to continue the commission—Governor Jarvis concurring therein, though he desired no house for himself. The bill limits the cost of the proposed building to $25 000 in case a new one shall be determined upon, and to $15,000 should it be determined to repair and refit the old Governor's Mansion. The report was ordered to be printed.

STATE DEBT.

On motion of Mr. Mebane, the special order, the bill to compromise, commute and settle the State debt was postponed till 7:30 o'clock p. m.

STATE TAXES.

On motion of Mr Alexander, the bill for levying equalizing and collecting taxes was made the special order for Thursday next at 10. m.

CALENDAR.

The disposition of the calendar was then resumed, and the fallowing bills were acted upon as indicated.

House bill to authorize the commissioners of Brunswick county to submit to the people the question, of the removal of their courthouse and jail. Passed third reading and was ordered to be enrolled.

ALBEMARLE AND CHESAPEAKE CANAL.

The resolution providing for an investigating into the condition of the State's interest to this work, was taken up an led to an animated discussion.

Mr. Ward moved to indefinitely postpone the whole matter, and it wrs agreed to by a vote of 20 to 18.

PROTEST.

Mr. Williamson, pursuant to notice, presented the protest of himself and other Senators against the passage of the bill to change the name of the Western Railroad, and to authorize its consolidation with the Mount Airy road, etc.

The protest, which was quite lengthy, was read by the clerk.

Mr. Caldwell warmly assailed the protest. It stated, he said, what was not so, and should not be permit ed to go on the Journal as it stood. He considered it libelous, and said it contained statements that were false.

Mr. Williamson raised the point of order that Mr. Caldwell was indulging in language unparliamentary and improper.

Mr. Caldwell said the protest was a libel upon the road.

Mr Davidson concurred in the point of order on the employment of objectionable language in the protest.

Mr. Williamson produced a recorded protest to show that the language employed therein justified that used by him.

Mr. Caldwell, whilst conceding the right of protest, insisted that it did not include the right to make an argument to which no opportunity was given for reply, nor did it admit of a miserable stump speech being injected into it.

The President held that the language of the protest was unparliamentary, and said a protest should be confined to a statement of the reasons prompting it.

Mr. Williamson, whilst bowing to the decision of the Chair, drew attention to the section containing a distinct disclaimer of all intention to wound the feelings of any Senator voting in the majority. He concluded by requesting permission to withdraw the protest for the present, with a view to some modification. Agreed to.

ALBEMARLE AND CHESAPEAKE CANAL.

Senate bill to authorize the Public Treasurer to exchange the stock of the State in the Albemare and Chesapeake Canal Company for bonds of the State issued prior to 1861, was taken up.

The bill proposes an exchange of the State's stock at par for State bonds and unpaid coupons (without interest) issued previous to 1861, and to cut loose from the concern.

After a lengthy discussion the bill was made the second special order for to-night.

CALANDAR

Mr. Henderson introduced a resolution in regard to clerical assistants.

Senate bill to incorporate Raleigh Tabernacle of the Genal Grand Accepted Order of the Sons and Daughters of Love and Charity.

Senate bill to incorporate the North Carolina Industial Association.

Senate bill to amend the charter of the town of Salisbury.

Senate bill to prohibit fishing in Coneto Creek, Pitt county.

Senate bill to amend the charter of the Chrlottee and Taylorsville Railroad Company.

Senate bill to allow the commissioners of Pender to levy a special tax.

The several bills passed second and third reading and were ordered to be engrossed.

House bill to lay off and construct a public road in Wilkes county. Passed and enrolled.

House bill to regulate the practice of denistry, &c., passed second reading and took its place on the calendar.

House bill to secure the better drainage of low bottom lands in Burke county. Passed.

Senate bill requiring clerks of all the courts of the State to account for all the penalties and forfetures coming into their hands passed its several readings.

House bill to incorporate the Warm Springs (Madison county) Turnpike Company passed its several readings and was ordered to be enrolled.

House bill for the drainage of land on Muddy Creek, McDowell county, passed its several readings.

NIGHT SESSION.

The Senate again met at 7½ o'clock.

THE STATE DEBT.

The special order was at once proceeded with, the Senate bill to compound, commute and settle the State debt, the question being on the third reading of the bill, considered by sections.

On motion of Mr. Mebane the first section was amended by excluding the bonds issued for the construction of the North Carolina railroad—so that the section prescribes as the first class of bonds proposed to be commuted at 40 per cent. all bonds issued prior to 1861, except those known as construction bonds of the North Carolina Road.

Mr. Henderson moved to amend section four by providing that all bonds exchanged for the new bonds shall be surrendered with all the coupons attached. Adopted, and the fourth section was then agreed to.

Sections, 5, 6, 7, 8, 9 and 10 were agreed to without amendment.

Mr. Henderson offered an amendment, the object of which, he said, was to make this compromise a finality. He moved to strike out the entire section. He believed the limited compromise heretofore offered was fatal to it. He desired this ode to remain open for a hundred years, if necessary, and if the creditors failed or refused to come in they could stay out. They certainly could not begin to draw interest till they made the exchange. Rejected, and the section agreed to without amendment.

The remaining sections of the bill—from 12 to 17 inclusive—were then agreed to without amendments, and the question recurred on the bill as amended.

There was quite a lengthy discussion after which Mr. Everett moved the previous question, which was agreed to and the bill then passed its third reading and was ordered to be engrossed and sent to the House. Ayes 25, nayes 14.

ALBEMARLE AND CHESAPEAKE CANAL

The second special order, the bill to exchange the stock of the State for State bonds was taken up. [The bill proposes to authorize the public Treasurer to receive $350,000 of the old bonds of the State, with interest, in exchange for the like amount of State stock in the company.]

This subject was fully discussed during the morning session. It appeard, however, to-night, that no court had been made to sell the property, though the mortgage bonds will mature on 1st of July next and a foreclosure to insisted upon.

Messrs. Everett and Bynum opposed the bill.

Mr. President Robinson, (Mr. Graham, of Lincoln, in the chair) made an able argument in its favor and was ably seconded by Mr. Snow.

The vote on the third reading resulted—ayes 33, nays 10.

It is said that Coulhag's bump of self esteem is so unique in its development that a phrenologist is employed to amputate it every season. It protrudes like the horn of a Texas steer.

THE Radical party in North Carolina hopelessly ruined itself by voting to railroads large appropriations of bonds not a cent of which has ever been paid.

The Democratic party is voting large appropriations out of actual taxation for railroad subsidies.

JOHN B. HUSSEY, - Editor.

How Much The Railroad Tax Comes To.

The Western N. C. Railroad belongs practically to the Mortgage Bond-holders. The State's interest in it as a Stockholder is a myth. The rights of the State in the corporation are practically confined to adding one-third to the burden of each tax-payer in North Carolina to complete the road for the Mortgage Bond-holders.

North Carolina did not more lavishly contribute of her best blood to sustain a glorious but fallen cause than she is now contributing of her hard earnings to wash out "mud-cut" for the benefit of the Mortgage Bond-holders.

In the name of a "North Carolina system" which was hopelessly shattered when the North Carolina Railroad became an appanage of a foreign corporation, honest but unsuspecting legislators are seduced as sheep follow the tinkling of a bell. The better informed or more wary are bullied, cajoled, induced by support of their local measures to extend aid to this and the backs of the people are still further bent to the burden that a few men may gorge and fatten on the Public Treasury.

This iron hand is on the throat of the people and when they gasp for breath and there is a struggle to be free, an additional burden has been added of another railway appropriation to insure enough legislative votes to secure the present burden in its place.

The NEWS is a life long friend of the Western N. C. R. R. It heartily and earnestly desires the completion of the work. It does not desire to see it built at the tax-payers expense, to become as it now will, the property of the Mortgage Bond-holders. It does not desire to see the best treasure of North Carolina, raised on the blades of the hoes, and turned up by the plow shares, of her laboring thousands turned into a golden sluice to wash out "mud-cut" that a few men may have a broad track and a smooth pathway to enormous wealth.

That is what it all amounts to, "Merely this and nothing more."

It is well to calculate how much North Carolina is paying annually to this end.

The total State taxes last year were $533,000. Of this $178,500 was the tax appropriated for paying the interest of the Mortgage Bond-holders and building the road for them. A little more than (⅓) one-third of the State taxes paid by each county and by each voter was paid for the benefit of those gentlemen.

The following is the amount of tax which was levied, upon the counties named, for that purpose. The Confederate tithes were once well known, but never well loved in this State. The following are samples of the Western N. C. R. Bond-holder's *thirds*—the tribute money annually levied on the State for them to fatten upon:—

Wake pays Western N. C. R. levy,	$9.150
Mecklenburg pays W. N. C. R. levy,	6.200
New Hanover pays W. N. C. levy,	7.100
Edgecombe pays W. N. C. levy,	5.500
Halifax pays Western N. C. levy,	4.100
Wayne pays Western N. C. levy,	3.500
Granville pays Western N. C. levy,	4.050
Orange pays Western N. C. levy	3.000
Guilford pays Western N. C. levy,	4.200
Rowan pays Western N. C. levy,	3.200
Warren pays Western N. C. levy,	2.000
Cleaveland pays Western N. C. levy,	1.600
Burke pays Western N. C. levy,	950
Alleghany pays Western N. C. levy,	455
Anson pays Western N. C. levy,	1.150
Alamance pays Western N. C. levy,	2.300
Ashe pays Western N. C. levy,	900
Beaufort pays Western N. C. levy,	2.150
Bertie pays Western N. C. levy,	2.050
Caldwell pays Western N. C. levy,	950
Catawba pays Western N. C. levy,	3.200
Chatham pays Western N. C. levy,	2.500
Craven pays Western N. C. levy,	2.500
Cumberland pays Western N. C. levy,	2.600
Forsythe pays Western N. C. levy,	3.200
Iredell pays Western N. C. levy,	2.450
Johnston pays Western N. C. levy,	2.700
Pitt pays Western N. C. levy,	3.100
Robeson pays Western N. C. levy,	2.250

And so on for all the other counties.

The following is the annual proportion paid by the two counties through which the road is to run:—

Buncombe,	$2.200
Madison,	600

The only two counties through which the road is to run contribute $2.800 and the rest of the State is taxed annually for this end $176.300.

Now how do individuals bear the burden. It is of course one-third added to the State tax paid by every voter in the State.

If a man paid $30 State tax last year $10 was the tribute money he paid to enrich the syndicate (ring is too impolite a word, in the estimation of some people) which shrewdly procured and keeps in force this tax levy. One-third of the tax on incomes, one third of the merchants tax, one-third of the liquor tax, in short one third of every tax collected for the State is added for the benefit of these Bonds-Holders and one third of the entire State tax can be struck from the shoulders of the people by a simple act passed by the representatives of the people allowing these mortgage Bond-holders to complete their own road. It may be said that they will foreclose their mortgage and take the road. It is far better that they should. They really own the road. They will foreclose when the road is finished. Let them do so now and build their own road. They can and will do it doubtless and more cheaply than the State can.

The opposition to this will come not from the friends of the people but from the friends of the mortgage bond-holders.

There are doubtless gentlemen who have by this time become owners of some of these bonds by purchase in the open market. They of course had no hand in the legislation which has placed this heavy burden on the people of this State. They can not be damaged by allowing them to prosecute their rights under the mortgage. The State is under no contract with any one to continue to tax herself to build bond-holders' Roads.

NOR IS THIS ALL.

It became certain that this appropriation was in danger of repeal. Thereupon, it is asserted, that to get additional strength an arrangement was made to charter the Cape Fear & Yadkin Valley Railroad. By this $50,000 in cash and $74,000 to pay and feed convicts have been appropriated for 1879 out of the public treasury. $124,000 approximates a fourth of the State tax paid last year. That is to say, to ensure that the ¼ of the State tax as above paid as tribute to the Western N. C. R. R. should not be disturbed, nearly one-fourth of the whole tax is added upon each county and upon each trade and each profession and each voter for another railroad corporation.

To secure votes a wide, reaching name was given it, i. e., "The Cape Fear and Yadkin Valley R. R." An amendment however to guarantee that some work should be done on the Yadkin Valley end was promptly voted down. An amendment that the $50,000 in cash appropriated out of the treasury should be applied to discharge the liens and judgments upon the road was also voted down.

This heavy appropriation adding nearly ¼ to the amount of the State tax was passed by a minority in each House. In the lower House it received 51 votes out 120 (34 members not voting) and in the Senate it received with the casting vote of the Speaker 20 votes out of 50.

The old burden is still in force A new burden nearly as large has been added.

The people have asked for bread. They have been given a stone.

The NEWS is friendly to all legitimate railroad enterprises. It does not approve of such heavy burdens being laid at this time. It does not approve of the mode in which the passage and continuance of these huge subsidies have been procured.

It remembers that the hands of the men who have to meet these impos's will cast the ballots too.

It regards with dread this evident combination to subject North Carolina politics to the control of these two corporations.

It is no new thing sto attempt to control the people by the influence of money voted out of their own Treasury.

There remains much more to be said. The NEWS deems that the salvation of the party demands that these things be said and that "the light be turned on" while the Legislature is yet in session.

There are thing that can yet be said, which when made known, will ring through the length and breadth of North Carolina.

The eyes of the people are on this Legislature. The great majority of the members are honest intelligent men. It is clear however that they are too unsuspecting of the wiles of astute wire pullers and designing politicians.

Insurance.

Correspondence of the News.

The views which we have seen expressed elsewhere on the merits of the first and second sections of House bill, entitled an act to regulate Fire Insurance in North Carolina, excite surprise and regret in the minds of intelligent underwriters and we fear will mis'lead that class, who have no fixed opinion of their own, but invariably "sneeze when their advisers take snuff." At no little cost of time and trouble, Messrs. Atkinson & Gordon, prominent and intelligent Underwriters of Wilmington had visited our city and assisted the Raleigh board in compiling statistical information, arguments and facts, which by the courtesy of the Committee on Insurance, they were permitted to lay before it. Not only so, they read telegrams and letters from 41 of the 46 foreign Companies doing business in this State, stating in the event of the passage of such a bill that they would cancel every policy now existing, and withdraw from the State, and Mr. Primrose, the Secretary of the N. C. Home Insurance Company informed the Committee that it would force his and all the other North Carolina Companies to retire from business and we learn that a majority of the Committee and members of the Senate expressed strong opposition to the bill. They saw clearly its disastrous consequences in the encouragement of arson and fraud, that the State would be deprived of an income of $15,000 per year, that exceeding $100,000 now paid by the insurance companies for agency expenses, rents, attorneys fees, advertising, etc., would no longer be enjoyed, but that the agents would have to return the commissions on all policies cancelled at a fearful loss and a great cost of time and trouble, no one be benefitted, and the business men and owners of property be forced to have insurance placed in distant States under their laws, at increased cost, delay and inconvenience, and they advised the Underwriters to feel no more concern about the bill, as it would not be recommended by the committee.

The father of the Bill and his friends seem to be ignorant of the fact, that an Insurance Policy is simply a contract, based upon a survey and application made by the assured, who fixes the values, that the agent, who secures the Insurance acts as the agent of the applicant, that the policy promises to pay loss or damage that may be caused by fire, at its value immediately preceding the fire, and not when the application was made, and they overlook another fact, that Insurance agents have no authority to change the conditions of a policy to suit such laws as are proposed without the previous consent of the Company they represent, and therefore, such a law would be inopperative, as no Company appreciating the indemnity promised by its policies would consent to such changes. We hope, therefore, that our Legislature will not enact any law calculated to force the Insurance Companies to retire from North Carolina, and so seriously injure, nay, destroy the business of Insurance Agents of this State. A large number of the Companies will stop the expense of filing and publishing their annual statements, until they are satisfied that no hostile legislation will be enacted. As previously stated in your columns, the statistics in Secretary of State's office show that in 1877 (a year remembered for very few fires) the Companies paid $105 for every $100 premiums received, and the loss was far greater in 1878, and hence, 13 companies have very recently withdrawn.

MANY CITIZENS.

The Department of Agriculture.

It is well known throughout the State, that the NEWS has been not only a supporter of the Agricultural Department from its creation, but that it has advocated it as a powerful agency to build up and advance the material interests of our State, and especially the great and leading interest of our people, Agriculture. This is and has been, and shall be a leading idea in the conduct of this paper because while fostering this interest we are subserving the best interests of all classes and professions of our people. The NEWS was one of the first papers in the State to advocate this great State enterprise, and as our readers know it has been unwavering in its support. It is also well known that all the press of the State, we believe without a single exception, has, stood by it. We have often stated in these columns, that no act of Legislation on our statute books is fraught with more hopeful result than the one establishing this Department. The scope of work marked out by the Act is greater than that of any similar Department in any other State. In fact Gov. Vance conveyed somewhat of the true idea of it smagnitude, when he declared about twelve months ago that this Department is the biggest thing North Carolina ever got hold of, except the war." That it can and will accomplish great things for the State we cannot doubt and as a friend to progress we should greatly regret to see anything occur by which its usefulness might be impaired.

We have received a letter from a gentleman in the East saying that the manufacturers in view of the fertilizer tax of $500 have increased the price of Guano five dollars per ton,—that as there are 500,000 tons sold in this State, the farmers are paying $2,500,000 tax on Guanos. These statements are given to show the extent which these erroneous impressions have obtained. We answer our friend by saying first: That the increased quantity of cotton demanded is not the result from our tax, but was adopted in a convention of manufacturers held in Georgia and applies to all the cotton States; that instead of an increase in price, there has been a reduction of $7.16⅔ per ton during the past two years, which is a saving of $215,000.00 to the farmers; and secondly, that instead of 500,000 tons, only 30,000 tons of Guano were sold in our State last year; thirdly, that the report of our State Chemist shows that the intrinsic value of fertilizers sold in our State has increased since the law was enacted. We quote from pages 4,647 of his recent Report:

"If we compare the average percentage of Ammonia and Soluble Phosphoric Acid and the commercial values of the fertilizers sold in North Carolina in 1877'78 (as given on pp. 26, 27, 28 and 29 of my report on "Analyses and valuation of fertilizers") we find:

1877.

Average percentage of Ammonia (in ammoniated fertilizers)	$ 2.63
Average percentage of Soluble Phosphoric Acid,	4.90
Average commercial value per ton,	33 66

1878

Average percentage of Ammonia,	$ 2.87
Average percentage of Soluble Phosphoric Acid,	6 29
Average commercial value per ton,	35 64

Or, there was an improvement of over 9 per cent, in amount of Ammonia, over 26 per cent. in amount Soluble Phosphoric Acid, and 5 per cent. in commercial value.

These results are certainly encouraging, and an increase in value of the artificial manures used in the State in a single year of 5 per cent. means an increase of over one hundred thousand dollars ($100,000)"

A PROTEST against the passage of the Cape Fear and Yadkin Valley Railroad subsidy has been signed by Col. Williamson and several other Senators. If the bill had been submitted to a vote of the people would it have carried twenty-five thousand votes in the whole State? How then can Senators and Representatives vote so large a tax upon the people who are unwilling to bear it?

THE intimation of the London Times that neither England or France would view with indifference and attempt of Khedivé Ismail, of Egypt, to restore his personal rule, voluntarily relinquished last year, means that if the present refractory attitude of that potentate is continued England and France will interfere. In such action England would, of course, take precedent, as she is Egypt's creditor to the extent of over $300,000,000, and has a controling interest in the Suez canal. The financial reforms of last year were inaugurated for her benefit, chiefly, and were a continuation of the action of 1876, which placed both the public debt of Egypt and the control of the general revenue and expenditure in the hands of a financial commission, consisting chiefly of Europeans. The Khedive who has been accustomed to gratify every personal desire, has probably found the restraint of foreign financial supervision irksome and regrets having surrendered his various personal property to be used to pay the public debt and interest. The present difficulty will result in making Egypt little more than a British province. The Egyptian Government now has complete control of the country from the Mediterranean sonth to the equator. There are ten thousand miles of telegraph and one thousand two hundred miles of railroad completed.

THE condition of Bayard Taylor's wife in Berlin is pitiful. It appears that in Berlin a furnished house is not to be had and Mr. Taylor when he went there as minister, had to hire a house for a term of years and furnish it out of his own means. He furnished his official residence very handsomely, running in debt for nearly every thing. By the German law the lease terminates in six months from the time of death of lessee. Mrs. Taylor is left so poor that she cannot pay the rent for the last quarter, nor for the coming months until July. She is besides, unable to pay the physician who attended her husband, or even his funeral expenses. The consul-general has paid the funeral expenses out of his own means, but expects reimbursement. Congress has come to the relief of Mrs. Taylor by voting her an amount equal to her husband's salary for one year.

THE unpleasantness in the German Parliament continues, and it appears that the National Liberals are increasing the thickness and strength of their backbone in the struggle against the disciplinary or gagging bill. The only the only thing the National Liberals and Bismarck are agreed upon is detestation of Ultramontanism and State rights. They are in favor of the English Parliamentary system—an Imperial ministry responsible to Parliament, and the Parliament's entire control of the Imperial funds. This, of course, is a system obnoxious to the Chancellor, who desires more and more to make the Parliament the creature of the Imperial Government. Herr Lasker, who spoke yesterday is a leading orator of the National Liberal party.

AN esteemed correspondent writes the NEWS a long letter from Greensboro. Want of space prevents its publication. The letter lays now two propositions. First, it denies that a single vote in the Senate of North Carolina last Friday, night cost the tax payers $100,000. It says the appropriation ought to have been made. Second, it says that it is *meanness* to compromise the State Debt. That it ought to be funded and paid *in full*.

The NEWS differs with its correspondent. Let him pay his pro rata of both and be satisfied. The majority of tax-payers will doubtless prefer a different course.

ONE third of the State tax paid by every man, women and child in North Carolina is a gift to the Mortgage Bondholders of the Western N. C. Railroad.

There is no rubbing that fact out.

What does this Legislature propose to do about it?

Do they propose to go home and tell their constituents that they have left this collection of taibute money still in force?

Do they propose to tell them that they have another railroad tax to keep this one in force?

There is a time to speak and a time to be silent.

This is not the time to be silent.

GRANT is far in advance of Wisdom in regard to the emigration of the negro. His pet project is to pack the entire tribe off the hospitatable shores of Santo Domingo, where they can either pick blackberries the entire year round or take a hand in some of the eighteen or seventeen revolutions in progress there. Grant is a very wise man.

IN Massachusetts there is a law on the statute books which provides that if a negro "strike any person of the English or Christian nation, he shall be punished by severe whipping." Ah! Senator Hoar, how can you sleep at night with such a horrible law hanging over the head of the "poor black man" in your own State?

Vegetine

FOR

CHILLS, SHAKES,

FEVER AND AGUE.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—

Dear Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-Joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like the most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.

Respectfully, MRS. J. W. LLOYD.

VEGETINE.—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

Druggists' Testimony.

Mr. H. R. Stevens:—

Dear Sir,—We have been selling your remedy, the Vegetine for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. It certainly is the ne plus ultra of renovators.

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes; yet, all the while, a more insidious but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it presumption, or "decline." It is not, in most cases, the tubercular phthisis or consumption of the lungs, which is the peculiar malady in climates like those of the British Islands and New England, but a general decay or arrest of the vital processes of nutrition. All the doctors agree that there is no remedy for this but COD LIVER OIL, but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unequaled nutrient and tonic for the body nerv drain.

DR. R. WILLON CARR of Baltimore says "he has used it in cases of Scrofula and other diseases with much satisfaction.

DR. T. C. PUGH of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.

Unheard of Bargains!

AT THE INDEFATIGABLE ENDEAVORS TO PLEASE THE PUBLIC SO HERE GOES
Ye muses nine, inspire my pen,
To sing of Fayetteville streeet, No 10,
who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk
And only ask for No 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids your all adieu
And wishes a happy new year too.
And not forget

LIVER

STILLINGIA. HEPATINE. GLOBE FLOWER SYRUP.

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.
SOLD AS A SUBSTITUTE FOR PILLS BY ALL DRUGGISTS.

LUNGS

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price. For sale by all Druggists.
Price 25 Cts. and $1.00

BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. PEMBERTON'S STILLINGIA AND QUEEN'S DELIGHT is the only medicine that gives a hope of recovery from Scrofula, Syphilis, Mercurial diseases [illegible] is unquestionably founded, and the [illegible] $10,000 will be paid by the proprietors if Mercury, or any mineral poison, purely vegetable and harmless can be found in it.

45 Years Before the Public.
THE CENUINE
DR. C. McLANE'S
CELEBRATED
LIVER PILLS
FOR THE CURE OF
Hepatitis, or Liver Complaint.
DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Each box has a red wax seal on the lid, with impression DR. McLANE'S. McLANE'S LIVER PILLS are the only genuine manufactures of C. McLANE, and have his signature on the wrapper. The genuine having the genuine C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., to be in market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

Valuable Educational Works

Sanford's Series Analytical Arithmetics AND Worcester's Dictionaries

Sanford's Series comprises four books, and is based upon the analytic system:
Sanford's First Lessons in Analytical Arithmetic, 16 mo., 27 cents.

Sanford's Common School Analytical Arithmetic, 355 pp. Half roan, 80 cents.
Sanford's Higher Analytical Arithmetic, 8vo., 414 pp. Half roan, Cloth sides, $1.25.
The definitions are clear, and the analyses exhaustive. The work is practical, and abounds in slate exercises. The experience of a large number of the best teachers in this country, is that, with Sanford in hand, pupils discover an unwonted enthusiasm in studying the science of numbers.

The Complete Series of Worcester's Dictionaries.

Worcester's School Dictionaries are based upon the quarto, which is preferred over all others by eminent scholars and men of letters. The series is admirably adapted to use in Schools, Academies, &c.
Liberal terms for introduction. We desire that Sanford and Worcester be examined by county Boards and principals of private schools. Correspondence solicited.

Congress.

SENATE.—House bill authorizing the Secretary of the Navy to accept for purposes of a voyage of exploration by way of Behrings Straits the ship Jeannette tendered by James Gordon Bennett for that purpose was passed.

Allison, from the committee on Appropriations, reported with sundry amendments the Deficiency Appropriation bill, and gave notice he would call it up as soon as the Army bill should be disposed of. Cameron of Wisconsin, gave notice that as soon as the Army bill should be disposed of, he would call up a resolution reported by the Committee on Privileges and Elections, declaring D. T. Corbin entitled to a seat as Senator from South Carolina, in place of M. C. Butler, the present incumbent.

Unfinished business being the Army Bill, the Senate refused to strik out of the Army Appriation bill the clause inserted by the House allowing railroad companies to use their telegraph lines for commercial purposes.

WASHINGTON, Feb, 24th. HOUSE,—The House has concurred in the Senate amendment to the tobacco bill, providing that the reduced tax on tobacco shall go into effect, May 1st. 1879, and now concurred in that amendment which strikes at the clause abolishing the tax on matches. Two other amendments remain to be disposed of.

The House has non concurred in the Senate amendments to the tobacco bill which strikes out the proviso that rectifiers rectifying less than 500 barrels of spirits a year, and shall pay a license of $100, and has also non concurred in amendments relating to the tax on national and savings banks. A committee of conference was then ordered upon the disagreeing votes of the two Houses on the tobacco bill.

Bills were passed removing political disabilities of G. H. Hill, Samuel Bannon, John A. Lovitt, and J. T. Rustic, of Va; James L. White of Fla.; and Geo. B. Cosby of Cal.

A conference committee on the tobacco bill consisting of Tucker, of Va., Robbins, of N. C., and Burchard of Ill., were appointed.

A suggestion for a night session for the South Carolina Election Case was opposed by the Republicans, and at 5:20 the House took a recess.

"Littleton" and X. Y. Z.

Correspondence of the News.

ENFIELD, N. C., Feb. 22, '79.

We noticed several days ago a letter in your paper signed X. Y. Z. We were struck with it, and hearing numerous comments on it, all of which are in the highest terms, and most of these comments were upon the Justices themselves, being thus confined in our own humble opinion, we were forced to think it a good thing. But imagine our surprise when in to-day's issue of your paper we saw the communication signed "Littleton."

While we profess ignorance to the identity of your correspondent, we feel fully authorized to say that no person in the town of Littleton, or even in Littletown township, had any hand in writing that letter," &c., says Littleton. Now we feel fully authorized in saying that no resident in the town of Littleton wrote "Littleton," Read carefully his communication and you will see that while he thus sets himself up as the guardian—and I care say—unasked of my native town, he too is a non-resident. And what more right has he to assume the livery of Littleton in this bold, presumptious manner? I dare say Littleton can take care of herself, and knows as well as he when her honor is reflected upon. The letter written by X. Y. Z. in our opinion is a good one. We too are ignorant of who X. Y. Z is; but evidently he knows what he is about, and if our esteemed friend "L" will attend the Superior Court, as we have no doubt that he will, as he very seldom fails, he will see the cases and questions in the letter of X. Y. Z. verified, for we are interested in a case exactly similar to that put by X. Y. Z Now, Mr. Editor, if this man is from Littleton, the people in that old town are becoming demoralized in their reasoning faculties. Littleton is the postoffice for several townships and for a large slope of Warren county. While we admit that we believe the letter was written in Halifax county, does X. Y. Z anywhere allude to the Justices of Littleton town or township. It is a general allusion, and in our humble opinion a just description of a majority of the justices in this county, for we have seen some seven or eight, who admitmitted that they didn't know how to make the entries on their dockets, saying that they always turned their dockets over to the attorneys to make entries for them others have declared that they have never looked into a law book of any description and never wanted the office; but that it was given to them for political purposes and that they supposed they had been appointed by the influence of friends, who wanted to use their vote. We have heard of one Justice in this county, who appeared as Judge and lawyer in the same case. He first let his opponent speak, then got down out of the chair, addressed the empty chair, as your worship, then got in the chair again and decided in his own client's favor, and refused an appeal, this happened in Littleton township. Now Mr. editor, this speaks badly, badly indeed, if such men are the "peers" in learning and ability to do justice of any in the State," as this great guardian of Littleson, who ten to one is a lawyer and has own pocket mag s rate, says Now Mr. editor, if "L" knows so well, living at the distance he does from Littleton, who wrote X. Y. Z. and might he not have written directly to X. Y. Z. and thus have vented his spleen privately, for to vent his feelings against X. Y. Z. he evidently feels piqued about something, or else his time hangs heavily on his hands. He may say the latter part of the above applies to us so it does. Being farmers this bad weather has kept us in doors a good part of our time, and having enough to live on, we think we have as much right to scribble as our friend has, only we can't work ourselves up to the pitch of thinking that we are as smart as he evidently thinks he is. Well it's good for him to think so. As to his miserable attempts at sarcasm, we will leave that for X. Y. Z. to settle, but if "Littleton" were as ignorant as he pretends, he might quickly see spread on the record at Halifax the cause evidently of the allusion of X. Y. Z to the compounding of felony, and the facts therewith connected. From what we can see this is the part of X. Y. Z's. letter that s rely touched Mr. "Littleton." He speaks of of X. Y. Z's arrogating the guardianship of the people. It is true the people very seldom return gratitude for such noble favors, but it has become life and death with us now, and unless some one helps us, just such lungs as was made by some of our big men, into the pockets of the people of Halifax county, will drag us by, the tentacles of these big suckers are beneath the already dark waves, that we are even now strtgling to remain above. And again, what reason has this Mr. "Littleton" to demand all this of X. Y. Z. Is he an officer? Now, Mr. Editor, he is no officer, nor does he want the facts in this matter brought to light. How often Mr. Editor have we here in Halifax county, with shame be it said, a county known as the hot bed of contamination, how often have the people of this county seen the efforts of individuals to expose the meanness, and thus tend to their cleaning away, frustrated by just such men as Mr. "Littleton." We want a reformation thorough and complete thoroughout every fibre of our county structure. Go on Mr. X. Y. Z. the people of the county are with you. They promise you they will stand by you. For our Legislature could not know who to appoint as justices when thousands of recommendations were going in every day from people who wanted their particular friends appointed, some feeling that to be a Justice of the Peace was honor enough for a life time, and others prefering it to the glittering title of Lord or M. P. of old England, had that distinguished office been offered them, others again recommended by lawyers who wanted to make pocket magistrates of them. Now I don't know who Mr. "Littleton" is, but I hope my remarks will not be taken as an attack on him, for they are meant to encourage the people's friend, who ever he may be. We allude to Mr. X. Y. Z. For we will assure the people that Mr. X. Y. Z. is right, for we too are acquainted with similar facts. "HONOR BRIGHT."

False Economy.

Correspondence to the News.

I am as much in favor of a sensible and proper system of "retrenchment and reform" as any man in the State, especially as I notice that my taxes are growing larger every year, but I have heard it said by them of olden time that there was such a thing as being "tight at the spiggot and loose at the bung," and that is exactly where in my opinion our present Legislature are making some very serious mistakes. In old times money was easy and men of influence and standing could be induced to accept responsible positions under the State and serve the people for the "glory" of the thing, but times are changed, people may talk as much as they please about prices &c., being down as low as they were in 1860, (which is not true by the way,) and admitting for argument sake that all that is said on that subject is true, we all know that money is scarce and that the class of men referred to above have passed away forever. No sir, a salary now-a-days means a living, or at any rate a long step towards it, and it is not only useless but selfish and niggardly for a great State like North Carolina to ask or expect men to accept positions of trust and grave responsibility without receiving something in the shape of adequate compensation therefor. I have been led into this train of thought by glancing over the list of salaries paid to the various State officers, and was particularly struck with the beggarly pittance paid to the Adjutant General of the State, one of the most valuable officers on the whole list. No man who has correctly studied history and marked the signs of the times but must know that in the near future the safety and prosperity of this country will depend to a great extent upon the efficient organization of the State troops throughout the country. To perfect and foster this organization is the peculiar powers of the Adjutant General of each State. There are also thousands of dollars worth of valuable military stores and equipments belonging to each State, which are annually increased by national donation, all of which the Adjutant General is obliged to look out for, properly distribute, and is held responsible for. In the majority of States in the Union these officers receive from $1,570 to $2,500 per annum, and every facility given them for properly and successfully discharging their duties. In North Carolina the Adjutant General recieves the magnificent sum of $300 per annum, although his duties necessarily require that a large portion of his time shall be taken from his private business. Gov. Vance himself, a warm friend and advocate of retrenchment, publicly recommended that the Adjutant General's salary be increased to at least $600 per annum, and as Gov. Vance well knows the duties which that officer was called upon to perform and the responsibility resting upon him, it is but fair to presume that the Governor knew and spoke advisedly. He (the Governor) now says in his message:

"To the unceasing energy and perseverance of Adjutant General Jones we are indebted for the nucleus of an excellent volunteer militia organization—the State Guard. Two brigades of white and eleven companies of colored Guards have been already organized; the former consisting of thirty-two companies, uniformed at their own expense, and armed and equipped by the allowance from the general government. The great majority of them are excellent, industrious young men, the flower of the communities where they live, and not likely to sympathize in any way with lawlessness and riot. In case of emergency they would be invaluable for maintaining order and enforcing the laws To all appearances the colored companies are equally well disposed and deserving of encouragement.

The State Guard really do all the duty, and fill all the functions of the whole militia contemplated in the Constitution, and should be encouraged and supported liberally. I respectfully recommend that the Adjutant General's pay be increased to $600. His duties are now considerable and are daily increasing in laboriousness and usefulness.

Mr. Editor, I am not a member of any military organization and have no personal interest in the question involved whatever, but I am a North Carolinian and have the interest of my State at heart, and I don't believe in sacrificing State interests, State property and State pride in order to save a beggarly hundred dollars or so, as that in my humble opinion is literally being "Tight at the spiggot and loose at the bung. OLD CITIZEN.

The Military Display.

Correspondence of the News.

WASHINGTON, N. C. Feb 20.

The occasion which calls forth this letter has been one of no little interest to our "citizen soldiers."

The grand military celebration of to-day. The very disagreeable weather, which we have had for several days past, had caused some fears as to a pleasant day. But the Gods have been propitious and the sanguine hopes of those who had formed such bright anticipations have been realized. At 8:30 this morning, the booming of the "Little Democrat" up the river announced the approach of the "Edgecombe Guards."

On their arrival at the pier, they were escorted with strains of music to the armory of the "Washington Light Infantry." In a short time their ranks were augmented by the "Hamilton Guards."

For a while our streets were alive with their brisk movements, as their swords, sashes and epaulettes glittered in the sunlight.

After airing themselves generally and straightening out the kinks, they repaired again to the armory, where, after some admirable drilling, they were welcomed to the hospitalities of old Washington, by Mr. James S. Shepherd.

We wish this an abler address could be produced in full. It was a eulogy of what the speaker was pleased to call the citizen soldiery, and abounded in complimentary allusions which elicited rounds of applause.

The target practice soon afterward on the company's range was closely contested, but the championship rested with the Edgecombe boys.

You can well imagine that, after the varied experiences of the morning, all were willing that the demands of the inner man should be satisfied.

At 2 o'clock they partook of a bountiful repast, which was varied with some after dinner speeches.

Capt. Bridgers of the Edgecombe Guards made a very pleasant speech reciprocating the warm sentiments of our boys.

A member of the Washington Light Infantry, in response to a toast, set the table in a roar by the bon mot, "that he was too full for utterance." We may suppose it was not of the heart he complained. But I must retrace and tell you how this reunion was brought about.

In a word the Washington Light Infantry had received the hospitalities of Tarboro and Hamilton respectively on different occasions and wished to return the kindness with their compliments. The following were the officers in command: J. L. Bridgers of E. G., N. H. Sebrell of H. G., and D. N. Bogart of W. L. I. After dinner, under the command of the Senior Capt. N. H. Sebrell, they did some fine drilling and gave a dress parade. But the pleasures of the day were not yet exhausted. The devotees of Terpsichord had not sung her praises for naught.

The grand military ball was to take place in the evening. It was here that the soldiers seemed most triumphant, as, with ineffable smiles, they captured tender trophies or whirled in the giddy mazes of the dance. It is seldom that so much beauty is gathered together, and your correspondent, who has just left the brilliant scene, would fain attempt some description of the ladies, imposes that task on Brother Battle, who will do the subject justice.

Altogether it has been a day long to be remembered, and we hope, of pleasure to the visiting military. The members of the W. L. I. desire to return their thanks to those ladies, who contributed in so large a measure to the success of the day. S.

To the Readers of this Paper.

Most of you are familiar with our "Bible Propositions" which have been published in this paper for over two months. We are glad to know, that several hundred of you have already availed yourselves of its benefits, and realized, to some extent, the wonderful virtues of the "Seven Springs Mass." Being induced to try it on account of the fairness of the proposition. We fully expected some few would demand the "Prize." Thus far not one has put in a claim. On the contrary, we have been the recipients of "Bibles," and other tokens of appreciation expressive of gratitude and acknowledgments for having called their attention to the remedy.

Our object for making that offer, was not merely to relieve headaches, for that which many regard as a case of headache, is in reality only a symptom of more serious and complicated diseases, it was therefore, more to reach these complaints, (the names of which we dislike to publish in news papers.) Knowing if the Mass was properly used for headache, the patient would discover its great value for other diseases, and we are glad to say, the plan has succeeded well, as evidenced from hundreds of correspondents, and the rapidly increasing demand for the Mass—and is being sold by all Druggists.

Rescued, Restored, Revived,

It is marvellous how the rounded outlines of the form are restored, the pale and sallow cheek vivified with the ruddy hue of health; the muscular fibre braced and strengthened, the nervous system and the brain toned and invigorated, by the steady use of Scott's Emulsion of Pure Cod Liver Oil and Hypophosphites of Lime and Soda. It is by far the most elegant and effective preparation in the whole catalogue of medicines, and in the disorders indicated by scrofula, consumption chronic coughs, and the various forms of debility, it is a wonderful remedy. It is also deprived of all its disagreeable properties, and as sweet and palatable as cream.

Tons of Grapes and their Use.

It is astonishing to see the large quantity of grapes of the finest quality, and large clusters, that are each year mashed up for Wine, at the Vineyard of A. Speer, Passaic N. J. Mr Speer purchases large quantities of grapes, and also raises the Oporto grape from which he makes his celebrated wine. Without the admixture of alcohol or spirits his wine is found by medical analysis to be the best wine in market for invalids and debilitated persons. It is sold Speer's Port Grape Wine, and is sold by Druggists. It is extensively used by the rich families in New York at their evening entertainments. Salesroom 44 Warren street, N. Y.
